David Jones voiced some concerns on how the Ambulance Fund could be used to fund certain projects. He states the funds should be allowed to make repairs to the fire boat. The boat is a rescue vehicle so the Ambulance Fund should be allowed to use. He also thinks the funds should be available to the Fire Department in a time of emergency to use the purchase items its needs without voter approval for things the fund was set up to supply. The purchase would be allowed by a majority vote of the Prudential Committee. Prudential Chairman Jones will get together with Counsel Sabbatt to discuss these issues and possibly draft a new article to allow the spending.
